Big and Little  
Exchanges

As a telephone system grows, the cost per telephone for operation and maintenance increases.

When a system has few subscribers, conversations are few and operating costs are low. Subscribers are grouped around the central office and lines are shorter and less expensive to build, line troubles are fewer and maintenance easier.

As subscribers increase, each telephone user can talk to an ever widening circle of friends and business associates. Operating costs per telephone grow as more frequent talks are held. Subscribers' lines begin to run farther and ever farther from the exchange until a big percentage of them are miles in length, expensive to build and increasingly expensive to maintain.

The simple central office equipment must give place to more intricate and costly apparatus. Expensive underground cable must be laid, and aerial cable replace open wires. All along the line expense grows as the scope of the service broadens.

Alderman Fetzer has been a consistent advocate of a tag day for policemen and firemen.

"One of the first things that challenged my attention when I entered the council," said Alderman Fetzer today, "was the low salaries paid to city employees, particularly policemen and firemen."

BRUNDAGE GIVES  
TENANTS HOPE OF  
NEW RENT LAWS

Action in behalf of tenants suffering from the high rent situation is possible at the next session of the legislature in January, according to an opinion given by Attorney General Brundage. Leaders of tenants' organizations at once prepared to open a campaign with members of the law-making body of the state.

"The general assembly might be able to pass some valid measure in mitigation of evils arising from what is commonly known as rent profiteering," said Mr. Brundage. "The effect of the anti-rent profiteering act of Wisconsin is practically to make the renting of property a public utility and to regulate and control it accordingly. No court so far as I can find, has passed upon this as yet."

A number of additional outer proceedings were filed against tenants by landlords. Preparations to fight the cases were made by practically all of the defendants.

VOTE FOR  
THOMAS M. SULLIVAN

His Peerless Record As Sanitary Trustee Entitles Him to the Office.

One of the best men to hold the position of Sanitary Trustee was Thomas M. Sullivan. His record as a member of the board was above reproach. He is honest, able and aggressive.

Thomas M. Sullivan deserves election as a candidate for trustee of the Sanitary District of Chicago.

His former record on the board is a sufficient guarantee of his ability and trustworthiness.

As chairman of the engineering committee during his former term he placed 22,000 arc lamps in the streets of Chicago.

He turned the first shovel of dirt on the Sag Channel and labor was given abundance of work while he was chairman of the committee.

His work was of a progressive character and the different committees of women, both Democrats and Republicans, who made a study of his record and attended all meetings have often testified to his efficiency and expert knowledge of Sanitary District affairs.

Mr. Sullivan is an ardent advocate of a deep waterway to the Gulf. He believes that the land owned by the District along the North Shore and its channel to Lockport and, incidentally to Starved Rock, should be used for building a boulevard to relieve the congestion on our streets.

He is known as an expert on the very complicated question of sewage disposal.
